organizational requirements, managing software updates, coordinating the end of subscription year rollover process, managing user access, and data cleansing. Ensures that the maximum amount of useful information is extracted from the organization's data systems through use of reporting tools, and acting as a single point of contact for all data requests. Manages the relationship with third party software providers of the website, extranet, membership database and online survey tool. Takes the lead in encouraging employees to share knowledge, ensuring they are aware of the knowledge management resources available to support their work, are appropriately trained and are using the systems efficiently and productively.

Website Design: Coordinates Web development, design and maintenance of PFC's Web site for currency and cohesion, and serves as the primary point of contact for creating and maintaining web pages and best practices for PFC web. Ensures the alignment, overall functionality and presentation of Web site. Works collaboratively with Community Engagement Liaison and the Social Media workgroup to ensure correct graphic, identity and Web standards to Web and to provide solutions to implementation and functionality issues; and performs related work as required.

Data Visualization: Assists with the design and creation of visualizations of new high-impact visual applications to make data actionable and facilitate decision making for the Board and staff. Collaboratively identifies the best means to visually depict the intermediate as well as final data analytics results in ways to provide effective process for mining new insights and assisting in decision making for solving complex problems. Applies design and data analysis techniques to organize the presentation of data in visually innovative ways in order to make it easier to understand, insightful, and actionable by end users. Lead the complete lifecycle of visual analytical applications; from development of mock-ups & storyboards to complete production ready application. Manages a repository of re-usable data visualization templates and views.

Program Monitoring: Ensures compliance by external Smart Start direct service partners and Partnership in house Smart Start activities to support compliance of programmatic implementation. Conduct on-site compliance monitoring to analyze the effectiveness of compliance programming. Recommends necessary revisions or implementation of processes, reports, and/or plan of actions; ensuring compliance with internal and regulatory guidelines of programs. Track program progress and ensure milestones are met on schedule. Prepare preliminary reports and fact sheets evaluating the impact, efficiency, and effectiveness of programs. Be the first point of contact should a question from the community or from the service providers arise related to programmatic issues.

Managerial Functions: Supervises Data Management Technicians by articulating expectations, displaying model behavior, maintaining open lines of communication and being clear about roles and relationships. Conducts performance evaluations, reviews timesheets and expense reports, and promptly addresses and resolves any unit issues as needed. Oversee professionals and their work to provide training and/or to develop specific resources to support goals of the three program areas (e.g., training manuals, design guidelines, informative research, etc.). Determine appropriate strategies and associated level of technical effort needed for tasks and authorize contractors to conduct tasks. Develop contractor task orders and approve monthly payment requests from contractors. Review reports and products to ensure quality.

In addition. In the event the Knowledge Manager possesses bilingual skills, the incumbent may be required to perform translation services at the direction of the President.
