

FY 2021-22 2022-2023 Activity Outputs: Reporting Instructions

Data Submission Calendar

Due Date	Quarter	Service Delivery Months in the Quarter
October 31, 2021	First Quarter	July 1 through September 30, 2021 2022
January 31, 2022	Second Quarter	October 1 through December 31, 2021 2022
April 30, 2022	Third Quarter	January 2 through March 31, 2022 2023
July 31, 2022	Fourth Quarter	April 1 through June 30, 2022 2023

Note: For consistency, the deadlines are set by dates rather than days of the week. If the date falls on a weekend, please plan to enter the data on the Friday before the deadline so you do not have to report the data over the weekend.

Contact Information

If you have technical problems with entering data or need other help with fabrik, contact:

- The Help Desk at helpdesk@smartstart.org

To make Program ID (PID) changes in fabrik and to align local data collection and program implementation with network data systems, contact your Program Officer:

- Bill O'Donnell at bodonnell@smartstart.org
- Courtney Latta-Sosebee at clatta-osebee@smartstart.org
- Rachael Burrello at rburrello@smartstart.org
- Susan Armstrong at sarmstrong@smartstart.org
- Wren Davisson at wdavisson@smartstart.org
- Emily Jones at ejones@smartstart.org
- Lakeisha Johnson, ECS Director at lajohnson@smartstart.org

If you have questions related to understanding the outputs instructions or how to develop a process to collect output data, contact:

- Ann Spence, Evaluation Officer at aspence@smartstart.org
- Casey Strange, L&E Director at cstrange@smartstart.org
- Katya Bogomoletc, Data Analyst at ebogomoletc@smartstart.org

If you are not able to locate a child care facility on the Facility Assignment screen, contact:

- Meshell Reynolds at mreynolds@smartstart.org

General Instructions for FY~~2021-22~~ 2022-23

During the annual submission of activities (ASA), local partnerships assign one or more Program IDs (PIDs) to each activity. Outputs are then automatically assigned based on the chosen PIDs. This enables NCPC to collect data it can aggregate on a statewide basis. In addition to the required outputs, some partnerships choose to assign optional outputs as well.

Outputs are the count of units such as staff, parents, child care facilities, and medical practices. Numbers served are common outputs.

If the PID you assigned has a required output that does not reflect how you implement the activity, then you will be able to report a zero (0) for number served and indicate it is not an appropriate output for your activity. In some cases, it may be necessary to remove or unselect a PID.

You are able to run a report that lists the outputs you will be required to report on each quarter. To find this report in fabrik, go to Activity Manager 2.0 P and in the brown Actions area on the right, go to the "Choose an action" drop down menu and select Output Report in the Data section.

Please keep in mind that a local partnership will need to collect and use more data than it submits to NCPC. Local partnerships collect additional data that may be used for a variety of reasons including:

- to manage staffing patterns, workloads, and activity budgets,
- to track participant recruitment and retention practices,
- to drive local decisions in a continuous quality improvement environment,
- to ensure the activities are addressing the needs in the community, and
- to report to other stakeholders

Partnerships are reminded to review and update internal documents (e.g., quarterly reports and logic models) to ensure that outputs collected in these documents are aligned with outputs to be reported in fabrik.

Activities with Multiple PIDs

If you have an activity with multiple PIDs, please report output data for each PID so NCPC can aggregate similar data across the state.

Partnerships bundle components of their activities differently.

- In some activities, all participants will receive all components of the activity, each component represented with a distinct PID.
- In other activities, participants may only receive a subset of the components represented with different PIDs.

For example, in an activity that includes both the Technical Assistance to Support Stars and Incentives to Support Stars PIDs, all the child care facilities participating in the technical assistance component may also receive incentives. In another activity with these same two PIDs, that may not be the case. Therefore, you need to report outputs for each PID separately so NCPC can determine how many child care facilities across the state participate in each service or component.

Report Unduplicated Numbers

Reported numbers should represent UNDUPLICATED COUNTS for each output question. The output reported each quarter represents *ONLY THOSE WHO PARTICIPATE IN THE ACTIVITY FOR THE FIRST TIME DURING THE FISCAL YEAR*. A year-end total for each output will be generated by adding across quarters. Therefore, unduplicated numbers within an activity are critical to avoid overreporting of annual output totals.

Note: For a few outputs, the output prompt will include a note in parentheses such as "(not unduplicated)". If this is noted, you can report duplicated data. Please do not report duplicated data unless you see this specific notation.

Avoid duplication of data –

- The outputs in the example below are duplicated each quarter, resulting in a year-to-date (YTD) total that exceeds the numbers served.

Question	Q1	Q2	Q3	Q4	YTD Total
Number of staff participating	100	100	100	100	400
Number of child care facilities participating {overall total}.	25	25	25	25	100

- The example below results in a YTD total that accurately reflects the numbers served.

Question	Q1	Q2	Q3	Q4	YTD Total
Number of staff participating	100	0	0	0	100
Number of child care facilities participating {overall total}.	25	0	0	0	25

Systems Building and Outreach

Community Outreach, Information & Resources ~~Public Awareness~~

Required Outputs	Instructions
<p>a. Number of community presentations given b. Number of community outreach events</p> <p>Optional: c.—Number of referrals for services made (not unduplicated)</p>	<p>a. Include the number of community presentations the staff from this activity present to increase parent and community awareness of, and build public support for, the importance of early childhood development and health as well as the availability of community services and resources.</p> <p>b. Include the number of community outreach events the partnership hosts or participates in through this activity to increase parent and community awareness of the importance of early childhood development and health and availability of services and resources. An example might be a community event held on a weekend for parents and their young children where a partnership has a designated table or area to support developmentally appropriate activities for young children and their parents and share information with participants.</p> <p>If staff give a community awareness presentation at a community outreach event, include both the number of presentations and events in questions a and b if appropriate. If the presentation is at a meeting that is not a community outreach event, please do not report the meeting as a community outreach event in question b.</p> <p>c.—Optional: Include the number of children or parents you refer to other services as a result of connecting with families through outreach efforts in this activity. Do not include referrals made through other activities. This may include duplicate counts of families or children. For example, if you refer a family to a specific family support activity and NC Pre-K, you would report 2 referrals for this same parent.</p>

Systems Building

Required Outputs	Instructions
<p>a.—Number of EC Profile indicators working to improve through collective efforts</p> <p>a. Number of cross sector coalitions (funded with any amount of PSC5517 Smart Start \$) supporting ECE</p> <p>b. Number of cross sector coalitions (funded with any amount of PSC5517 Smart Start \$) supporting HVPE</p> <p>c. Number of cross sector coalitions (funded with any amount of PSC5517 Smart Start \$) supporting Literacy</p> <p>d. Number of cross sector coalitions (funded with any amount of PSC5517 Smart Start \$) supporting Mental Health</p> <p>e. Number of cross sector coalitions (funded with any amount of PSC5517 Smart Start \$) supporting Physical Health</p> <p>f. Number of meetings the local partnership convened with outside organizations to address one or more EC Profile indicators</p> <p>g. Number of meetings led by other organizations where local partnership raised issue about one or more EC Profile indicators</p>	<p>a.—Include the number of EC Profile indicators that the partnership is working with partner organizations to improve. Include indicators that the partnership is working on as the primary convener of collective efforts as well as indicators that the partnership is actively participating in collective efforts to improve but is not the primary convener. There are 10 possible EC Profile indicators so 10 is the maximum number you could report.</p> <p>a.- e. Include the number of coalitions Smart Start is participating in with other community partners to support the topics in each of the categories noted. Count the coalition in the quarter that the first meeting occurs during the fiscal year. Please enter Zero if you do not have data to report for a-e in any of the quarters. If at the beginning of the fiscal year you have coalitions currently underway, please count those in the first quarter.</p> <p>f. Include the number of meetings that the partnership convened with outside partner agencies for community systems building efforts that will ultimately positively impact one or more of the EC Profile Indicators.</p> <p>g. Include the number of meetings led by other organizations convened for community systems building efforts that partnership staff attended as collaborative partners. These efforts represent those for which partnership staff have expressly connected with one or more of the EC Profile Indicators.</p> <p><i>Please see the definition of Purpose Service Code (PSC) 5517 for a more thorough definition of community systems building.</i></p>

Early Care and Education

CCR&R: Consumer Education & Referral

Required Outputs	Instructions
<p>a. Number of parents/guardians receiving consumer education about child care</p> <p>b. Number of parents/guardians receiving referrals to child care</p>	<p style="background-color: yellow;">The CCR&R Consumer Education & Referral PID should only be used by CCR&R Lead Agencies and CCR&Rs with special permission from the Leads to provide this type of support.</p> <p>a. Include the number of individual parents/guardians receiving information about finding child care and the importance of child care quality.</p> <p>b. Include the number of individual parents/guardians receiving referrals to child care</p> <p>Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Child care center or home providers/staff should NOT be included</p>

Consultation and Coaching: Advising for Higher Education*

Required Outputs	Instructions
<p>a. Number of child care staff receiving/participating in higher education advising</p> <p>b. Number of child care facilities with at least one staff person participating</p>	<p>a. Include the number of direct teaching staff receiving/participating in professional development planning/advising assistance related to the completion of college courses as a part of the activity.</p> <p>This number should not include child care staff who get an award for completing a class who do not receive Professional Development Advising. If the staff only receive Smart Start funded course completion bonuses, for example, include the number of staff in the PID Incentives for Accessing Higher Education.</p> <p>Direct teaching staff include, but are not limited to, those individuals who spend a majority of their day working with children (e.g. lead teachers, teachers, and assistant teachers), directors, and program coordinators.</p> <p>Directors are counted as “direct teaching staff” if they spend the majority of their time working directly with children.</p> <p>b. Include the total number of child care facilities with at least one staff person reported in question a.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Health Benefits for Child Care Providers*

Required Outputs	Instructions
<p>a. Number of child care facilities participating</p> <p>b. Number of child care staff participating</p>	<p>a. Count the number of child care facilities that had one or more direct teaching staff receiving health benefits that were at least partially paid for with Smart Start funding.</p> <p>b. Include direct teaching staff who have a portion of their health insurance premiums paid by a Smart Start-funded activity.</p> <p>Direct teaching staff include, but are not limited to, those individuals who spend a majority of their day working with children (e.g. lead teachers, teachers, and assistant teachers), directors, and program coordinators.</p> <p>Directors are counted as “direct teaching staff” if they spend the majority of their time working directly with children.</p> <p>Reimbursement for health services costs should ONLY be for the portion of the cost NOT covered by health insurance.</p> <p>If payment or reimbursement is made directly to staff persons, count ONLY those staff persons who receive the payment or reimbursement.</p> <p>If payment or reimbursement is made to a facility, count all staff who are eligible for health insurance/services through this activity.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Incentives for Accessing Higher Education*

Required Outputs	Instructions
<p>a. Number of staff in child care <i>centers</i> attending a college course</p> <p>b. Number of family child care <i>home</i> providers attending a college course</p> <p>c. Number of <i>license-exempt</i> staff attending a college course</p> <p>d. Number of child care staff receiving a scholarship to attend a college course</p> <p>e. Number of child care facilities with at least one staff person participating</p>	<p>a, b, c & d. DCDEE has requested that we collect more data for the CCDF report that is sent to the federal government each year. Specifically:</p> <ul style="list-style-type: none"> We are separating out data based on type of facility served. Note that license-exempt practitioners include those in religious sponsored facilities (GS-110's) who receive support to attend a college course paid for with Smart Start funds. Early Childhood staff who receive a scholarship paid for in full or part by Smart Start funds should be counted in two places. First, they are included as part of those assisted by the type of facility where they are employed (a-c: center, home, license-exempt). Second, they are counted in the output asking for number of caregivers receiving a scholarship (d). <p>Include direct teaching staff who receive support to ENROLL in and ATTEND at least one for-credit college-level course in which they will earn college credit hours.</p> <ul style="list-style-type: none"> <u>Direct teaching staff</u> include but not limited to those individuals who spend a majority of their day working with children (e.g. lead teachers, teachers, and assistant teachers), directors, and program coordinators. Directors are counted as "direct teaching staff" if they spend the majority of their time working directly with children. <u>Enroll</u> means that a person has done what they need to commit to completing a course (pay fees, etc.). If a person "drops" or "withdraws" from a class during the period when there is no penalty for doing so, this person should NOT be counted as "enrolled." If direct teaching staff are participating in T.E.A.C.H. AND a Smart Start funded activity is providing additional support, the number of direct teaching staff who receive this additional support (e.g. bonus for attaining an educational milestone) from Smart Start are counted. <p>e. Include all the facilities with staff reported in a, b, c & d.</p> <p>Do NOT count: Direct teaching staff if they are receiving ONLY T.E.A.C.H.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Incentives to Support Stars*

Required Outputs	Instructions
<p>a. Number of child care <i>centers</i> that receive <u>ongoing or periodic</u> funding or incentives designed to support quality</p> <p>b. Number of family child care <i>homes</i> that receive <u>ongoing or periodic</u> funding or incentives designed to support quality</p> <p>c. Number of child care <i>centers</i> that receive <u>one time</u> grants, awards, or bonuses designed to support quality</p> <p>d. Number of family child care <i>homes</i> that receive <u>one time</u> grants, awards, or bonuses designed to support quality</p> <p>e. Number of child care facilities participating (overall total)</p>	<p>a, b, c, d,& e. These outputs refer to funding or other incentives provided to support the cost of the high quality of child care. Payment should be made to the center/home.</p> <p>In order to provide better data for the CCDF report which DCDEE sends to the federal government each year, we are separating out data based on:</p> <ul style="list-style-type: none"> - Type of facility receiving the awards or incentives - Frequency of payments <p>In tracking awards, please distinguish between those facilities receiving an award, funding, or other incentives just one time during the year from those that received an incentive more than once or ongoing throughout the year. In addition, report separately awards to centers from awards to child care homes.</p> <p>These may include payments for lower staff/child ratios, offering health insurance, or substitutes to cover sick leave.</p> <p>For the total number of child care facilities participating (overall total) count each facility only once. For example, if a center receives both ongoing or periodic funding or incentives, only count the center once in the overall total.</p> <p>Do NOT count: Centers and homes that receive a quality bonus through either the DCDEE Subsidy Reimbursement System OR the Smart Start Reporting System.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Incredible Years (IY) – Teacher Classroom Management

Required Outputs	Instructions
<p>a. Number of child care staff participating</p> <p>b. Number of child care facilities with at least one staff person participating</p>	<p>a. Include the number of direct teaching staff participating in, receiving assistance in, or receiving funding as a part of the activity.</p> <p>Direct teaching staff include, but are not limited to, those individuals who spend a majority of their day working with children (e.g. lead teachers, teachers, and assistant teachers), directors, and program coordinators.</p> <p>Directors are counted as “direct teaching staff” if they spend the majority of their time working directly with children.</p> <p>b. Include the number of child care facilities with at least one staff person reported in question a.</p>

Kindergarten Transitions

Required Outputs	Instructions
<p>a. Number of families participating</p> <p>b. Number of child care staff participating</p> <p>c. Number of K-12 representatives participating</p>	<p>a, b, & c</p> <p>Include the number of families, child care staff, and K-12 representatives actively participating in kindergarten transition activities fully or partially funded with Smart Start funds.</p>

Lending Library

Required Outputs	Instructions
<p>a. 1.a. Number of child care staff who use lending library resources</p> <p>b. 1.b. Number of child care facilities with at least one staff member who uses lending library resources</p> <p>c. 2. Number of parents/caregivers who use lending library resources</p> <p>d. 3 . Number of other adults (TAs, home visitors, therapists, etc.) who use lending library resources</p> <p>e. 4. Unduplicated total number of adults who use lending library resources (unduplicated number of adults reported in 1.a, 2, & 3)</p> <p>f. 5 . Total number of visits to the lending library (cumulative number each quarter, <u>not</u> unduplicating visitors)</p>	<p>a. a, c, d, & e. Provide an unduplicated count of the number of child care staff, parents/caregivers, and other adults such as technical assistants, home visitors, or therapists who use your lending library resources. This includes adult visitors to the resource center as well as those not visiting the resource center (for example, materials may be delivered to some adults) but who use materials available through your resource center such as developmentally appropriate toys or books on loan.</p> <p>For those adults who fit more than one category (parent and child care staff, for example), they should be asked at each visit which role they are filling for that particular visit. Note that some adults may be counted in both the number of child care staff and the number of parents.</p> <p>Remember the numbers reported in Quarters 2-4 should only include those <u>not</u> already counted in a previous quarter.</p> <p>b. Provide an unduplicated count of the number of child care facilities with at least one staff member who uses the resources. This number should represent the facilities in which the staff reported in Question #1.a work.</p> <p>e. The data reported for Question 4 should be an unduplicated sum of child care staff (#1.a) , parents/caregivers (#2), and other adults (#3). If an adult uses resources one week as a child care teacher, count him/her as "staff" in Question 1.a. If the same adult borrows materials 2 weeks later as a parent, count him/her as a parent in Question 2. While you would add a "1" to both the rows for child care staff and parents, you would only report "1" (NOT "2") for Question 4 to unduplicate this individual in the overall total.</p> <p>f. Provide the total number of visits to your lending library. This may represent the same adult visiting the lending library on multiple occasions.</p>

Mentoring

Required Outputs	Instructions
<ul style="list-style-type: none"> a. Number of staff in child care <i>centers</i> that receive mentoring b. Number of staff in family child care <i>homes</i> that receive mentoring c. Number of <i>license-exempt</i> practitioners that receive mentoring d. Number of child care facilities with at least one staff participating 	<ul style="list-style-type: none"> a, b, & c. In order to provide better data for the CCDF report which DCDEE sends to the federal government each year, we are separating out data based on type of facility served. c. License-exempt practitioners include those in religious sponsored facilities (GS-110's) and who receive mentoring services paid for with Smart Start funds. d. Include the all the facilities with staff reported in a, b & c.

Motheread: Story Exploring

Required Outputs	Instructions
<ul style="list-style-type: none"> a. Number of child care facilities participating b. Number of children whose teachers are participating 	<ul style="list-style-type: none"> a. Count the number of child care facilities that had one or more classrooms participating. b. Include the number of children in the classrooms participating.

Part-Day Child Care Program

Required Outputs	Instructions
<p>a. Number of children participating</p> <p>b. Average number of program hours offered per child for the quarterly reporting period</p>	<p>a. Include the number of children participating in this activity.</p> <p>Each child should ONLY be counted once.</p> <p>b. Include the average number of hours the part-day child care was offered for a participating child during the quarter. This will provide data about the intensity of the program for a given child.</p> <p>You do not need to calculate this based on attendance. This is based on the schedule for an enrolled child. For example, if the program operates 4 hours per day, 5 days a week for 12 weeks in quarter 1, enter 240 hours. (4 X 5 X 12 = 240)</p> <p>If the program is closed two of these weeks due to a holiday, using the above example you would enter 4 X 5 X 10 (4 hours X 5 days X 10 weeks) for Quarter 1. Likewise, if the program is closed for 6 weeks due to hurricane damage, account for the 6 weeks in the data reported (4 hours X 5 days X 6 weeks of being open out of the 12 possible weeks)</p> <ul style="list-style-type: none"> - You do not need to account for limited closures due to facilitator sickness (less than 1 week) - Please account for extended closures due to COVID, hurricane damage, etc. (1 week or more)

Professional Development Supplements-Other

Required Outputs	Instructions
<p>a. Number of child care facilities participating</p> <p>b. Number of child care staff participating</p>	<p>These supplements are intended to increase the provider compensation based on educational achievement and continuity of service.</p> <p>Do NOT include data related to supplements paid through WAGE\$. There is a separate PID for WAGE\$ participants (Professional Development Supplements – WAGE\$.)</p> <p>Do NOT include course completion bonuses/awards/grants. If the activity awards a specific grant to child care providers for completing a course with a B, for example, you would report those providers as staff attending a college course in the Incentives for Accessing Higher Education Program ID (PID).</p> <p>a. Count the number of child care facilities that had one or more direct teaching staff receiving a supplement that was at least partially paid for with Smart Start funding.</p> <p>b. Include direct teaching staff who receive a supplement through a Smart Start-funded activity.</p> <p>Direct teaching staff include, but are not limited to, those individuals who spend a majority of their day working with children (e.g. lead teachers, teachers, and assistant teachers), directors, and program coordinators.</p> <p>Directors are counted as “direct teaching staff” if they spend the majority of their time working directly with children.</p>

Professional Development Supplements - WAGE\$

Required Outputs	Instructions
<p>a. Number of staff participating</p> <p>b. Number of child care facilities participating</p> <p>Note: LPs must click "submit" in fabrik for the 4 quarters but will not need to enter the data in fabrik for this FY. NCPC will upload the data for 4th quarter reporting which will reflect the year-to-date data.</p>	<p>NCPC will collect the data from CCSA and upload the WAGE\$ data into fabrik for the 4th quarter AFTER the 4th quarter deadline. The data will not be entered for 2nd quarter because this would cause duplication in the data for the year-to-date number that fabrik calculates for outputs .</p> <ul style="list-style-type: none"> • Do NOT report output data for Quarters 1-4 in fabrik. <p>Follow these guidelines for each reporting period: <i>Quarter 1</i> - Leave blank, click submit data, and when prompted indicate data not yet available. <i>Quarter 2</i> - Leave blank, click submit data, and when prompted indicate that the data will be reported in Quarter 4. <i>Quarter 3</i> - Leave blank, click submit data, and when prompted indicate data not yet available. <i>Quarter 4</i> - Leave blank, click submit data, and when prompted indicate that the data will be reported for Quarter 4 by NCPC. NCPC will upload and submit the data just after the deadline.</p> <p>FOR LOCAL DATA REVIEW ONLY: The instructions below are to assist you with pulling the data from your WAGE\$ reports for local use.</p> <p>a. Include the number of staff who received a supplement through WAGE\$. Child Care Services Association (CCSA) provides local partnerships with data on the number of participants paid on a semi-annual basis in Table 4 of CCSA's WAGE\$ report.</p> <p>b. Include the number of child care facilities that had one or more direct teaching staff receiving a supplement though WAGE\$. This number is reported in Table 4 of CCSA's WAGE\$ semi-annual report as the total number of programs.</p> <ul style="list-style-type: none"> • Please review the mid-year output data you receive from CCSA but do not report it in fabrik for January or July reporting. Entering data in both January and July would cause fabrik to duplicate data in the year-to-date number that fabrik calculates. NCPC will upload the data for July reporting. <p>Follow these guidelines for each reporting period: <i>Quarter 1</i> - Leave blank, click submit data, and when prompted indicate data not yet available. <i>Quarter 2</i> - Leave blank, click submit data, and when prompted indicate that the data will be reported in Quarter 4. <i>Quarter 3</i> - Leave blank, select submit data, and when prompted indicate data not yet available. <i>Quarter 4</i> - If you have received the report from CCSA before the reporting deadline, then enter the number of "Total Paid" from Table 4. If you have not yet received the CCSA report before the deadline, then leave blank, click submit data, and when prompted indicate data not yet available. Please go back to enter the data once you receive the report.</p> <p>Please do not contact CCSA to request these data. NCPC has spoken with CCSA and they are aware of our reporting needs. Contact NCPC if you have questions.</p>

Technical Assistance to Support Other Quality - CLASS*

Required Outputs	Instructions
<p>a. Number of child care facilities receiving TA with CLASS</p>	<p>Only include facilities receiving technical assistance (TA) based on the use of the specific assessments noted. This TA should be guided by pre/post-data to measure the impact.</p> <p>Include facilities once the pre-assessment has been conducted and TA, based on assessment results, has begun with the intent to complete a post-assessment. Only include facilities receiving measurable technical assistance (TA). Do <u>not</u> include general TA or resource sharing.</p> <p>a. Include those facilities with at least 1 classroom receiving a pre and post assessment using CLASS (Classroom Assessment Scoring System).</p> <p>Note: If the TA occurs such that the pre-assessment is conducted in one FY and some of the TA along with the post-assessment is conducted in the subsequent FY, you would count the facility in both the year of the pre-assessment and the year of the post-assessment.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Technical Assistance to Support Other Quality - PAS*

Required Outputs	Instructions
<p>a. Number of child care facilities receiving TA with PAS</p>	<p>Only include facilities receiving technical assistance (TA) based on the use of the specific assessments noted. This TA should be guided by pre/post-data to measure the impact.</p> <p>Include facilities once the pre-assessment has been conducted and TA, based on assessment results, has begun with the intent to complete a post-assessment. Only include facilities receiving measurable technical assistance (TA). Do <u>not</u> include general TA or resource sharing.</p> <p>a. Include those facilities receiving a pre and post assessment using PAS (Program Administration Scale used in center-based child care).</p> <p>Note: If the TA occurs such that the pre-assessment is conducted in one FY and some of the TA along with the post-assessment is conducted in the subsequent FY, you would count the facility in both the year of the pre-assessment and the year of the post-assessment.</p>

Technical Assistance to Support Other Quality - BAS*

Required Outputs	Instructions
<p>a. Number of child care facilities receiving TA with BAS</p>	<p>Only include facilities receiving technical assistance (TA) based on the use of the specific assessments noted. This TA should be guided by pre/post-data to measure the impact.</p> <p>Include facilities once the pre-assessment has been conducted and TA, based on assessment results, has begun with the intent to complete a post-assessment. Only include facilities receiving measurable technical assistance (TA). Do <u>not</u> include general TA or resource sharing.</p> <p>a. Include those facilities receiving a pre and post assessment using BAS (Business Administration Scale for Family Child Care).</p> <p>Note: If the TA occurs such that the pre-assessment is conducted in one FY and some of the TA along with the post-assessment is conducted in the subsequent FY, you would count the facility in both the year of the pre-assessment and the year of the post-assessment.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Technical Assistance to Support Other Quality - POEMS*

Required Outputs	Instructions
<p>b. Number of child care facilities receiving TA with POEMS</p>	<p>Only include facilities receiving technical assistance (TA) based on the use of the specific assessments noted. This TA should be guided by pre/post-data to measure the impact.</p> <p>Include facilities once the pre-assessment has been conducted and TA, based on assessment results, has begun with the intent to complete a post-assessment. Only include facilities receiving measurable technical assistance (TA). Do <u>not</u> include general TA or resource sharing.</p> <p>b. Include those facilities receiving a pre and post assessment using POEMS (Preschool Outdoor Environment Measurement Scale).</p> <p>Note: If the TA occurs such that the pre-assessment is conducted in one FY and some of the TA along with the post-assessment is conducted in the subsequent FY, you would count the facility in both the year of the pre-assessment and the year of the post-assessment.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Technical Assistance to Support Other Quality – NAEYC Accreditation*

Required Outputs	Instructions
<p>a.—Number of child care facilities receiving TA for NAEYC accreditation</p> <p>a. Total Number of Facilitates (Child care centers or homes) that have made changes to the learning environment to meet the requirements of NAEYC Accreditation: ____</p> <p>b. Total Number of Facilitates (Child care centers or homes) that have made changes to the program operations to meet the requirements of NAEYC Accreditation: ____</p> <p>c. Number of Facilities (Child care centers or homes) that have received support to complete Step 1: Enrolled and Completed the Self-Study: ____</p> <p>d. Number of Facilities (Child care centers or homes) that have received support to complete Step 2: Applied and Self-assessed: ____</p> <p>e. Number of Facilities (Child care centers or homes) that have received support to complete Step 3: Site Visit and Accreditation: ____</p> <p>f. Number of Facilities (Child care centers or homes) that have received support to complete Step 4: Maintenance of Accreditation and submit annual report: ____</p> <p>g. * Total Number of Facilities (Child care centers or homes) that have received support towards NAEYC Accreditation-DOES NOT HAVE TO BE THE SUM OF THE PREVIOUS QUESTIONS: ____</p>	<p>Do not include general TA or resource sharing.</p> <p>A. Include those facilities that are receiving consultation during any stage of the NAEYC (National Association for the Education of Young Children) accreditation process AND have specifically made changes to the learning environment based on this.</p> <p>B. Include those facilities that are receiving consultation during any stage of the NAEYC (National Association for the Education of Young Children) accreditation process AND have specifically made changes to the program operations based on this.</p> <p>C. Include those facilities that are receiving consultation during the first stage of the NAEYC (National Association for the Education of Young Children) accreditation process. A single facility may receive consultation on multiple stages over the course of the FY, they should be counted based on the step they are receiving support on during a given quarter.</p> <p>D. Include those facilities that are receiving consultation during the second stage of the NAEYC (National Association for the Education of Young Children) accreditation process. A single facility may receive consultation on multiple stages over the course of the FY, they should be counted based on the step they are receiving support on during a given quarter.</p> <p>E. Include those facilities that are receiving consultation during the third stage of the NAEYC (National Association for the Education of Young Children) accreditation process. A single facility may receive consultation on multiple stages over the course of the FY, they should be counted based on the step they are receiving support on during a given quarter.</p> <p>F. Include those facilities that are receiving consultation during the fourth stage of the NAEYC (National Association for the Education of Young Children) accreditation process. A single facility may receive consultation on multiple stages over the course of the FY, they should be counted based on the step they are receiving support on during a given quarter.</p> <p>G. Include those facilities that are receiving consultation during any stage of the NAEYC (National Association for the Education of Young Children) accreditation process. Please note that this total count may be larger than the sum of the data reported above if, for example, a child care facility received TA on more than one stage during the fiscal year.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Technical Assistance to Support Other Quality*

Required Outputs	Instructions
<p>a.—Number of child care facilities receiving TA with CLASS</p> <p>b.—Number of child care facilities receiving TA with PAS</p> <p>c.—Number of child care facilities receiving TA with BAS</p> <p>d.—Number of child care facilities receiving TA with POEMS</p> <p>e.—Number of child care facilities receiving TA for NAEYC accreditation</p> <p>f.—Number of child care facilities participating (overall total)</p>	<p>Only include facilities receiving technical assistance (TA) based on the use of the specific assessments noted. This TA should be guided by pre/post-data to measure the impact.</p> <p>Include facilities once the pre-assessment has been conducted and TA, based on assessment results, has begun with the intent to complete a post-assessment. Only include facilities receiving measurable technical assistance (TA). Do not include general TA or resource sharing.</p> <p>a.—Include those facilities with at least 1 classroom receiving a pre and post assessment using CLASS (Classroom Assessment Scoring System);</p> <p>b.—Include those facilities receiving a pre and post assessment using PAS (Program Administration Scale used in center-based child care);</p> <p>c.—Include those facilities receiving a pre and post assessment using BAS (Business Administration Scale for Family Child Care);</p> <p>d.—Include those facilities receiving a pre and post assessment using POEMS (Preschool Outdoor Environment Measurement Scale);</p> <p>H.—Include those facilities that are receiving consultation during any stage of the NAEYC (National Association for the Education of Young Children) accreditation process.</p> <p>b.—Include the unduplicated number of facilities in which you funded technical assistance using one or more of the assessments listed (CLASS, PAS, BAS, POEMS), or that is focused on NAEYC accreditation. This number may be smaller than the total number of facilities listed in a-e because a technical assistant may be using multiple assessments with the same child care facility. This number should not exceed the total number of facilities listed in a-e.</p> <p>Note: If the TA occurs such that the pre-assessment is conducted in one FY and some of the TA along with the post-assessment is conducted in the subsequent FY, you would count the facility in both the year of the pre-assessment and the year of the post-assessment.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Technical Assistance to Support Stars*

Required Outputs	Instructions
<p>a. Number of child care facilities receiving technical assistance with ECERS</p> <p>b. Number of child care facilities receiving technical assistance with ITERS</p> <p>c. Number of child care facilities receiving technical assistance with FCCERS</p> <p>d. Number of child care facilities participating (overall total)</p>	<p>Only include facilities receiving technical assistance (TA) based on the use of the specific environment rating scales noted to support the star level. This TA should be guided by pre/post-data to measure the impact.</p> <p>Include facilities once the pre-assessment has been conducted and TA, based on assessment results, has begun with the intent to complete a post-assessment. Only include facilities receiving measurable technical assistance (TA). Do <u>not</u> include general technical assistance or resource sharing.</p> <p>a. Include those centers that receive a pre and post assessment using ECERS (Early Childhood Environment Rating Scale).</p> <ul style="list-style-type: none"> • Include unduplicated facilities even if only selected classrooms within a facility are receiving the technical assistance with the ECERS. <p>b. Include those centers that receive a pre and post assessment using ITERS (Infant Toddler Environment Rating Scale).</p> <ul style="list-style-type: none"> • Include unduplicated facilities even if only selected classrooms within a facility are receiving the technical assistance with the ITERS. <p>c. Include those family child care homes that receive a pre and post assessment using the FCCERS (Family Child Care Environment Rating Scale).</p> <p>d. Include the total number of unduplicated child care facilities that receive a pre and post assessment using at least one of the environment rating scales (ECERS, ITERS, or FCCERS) reported in questions a, b, & c.</p> <ul style="list-style-type: none"> • If a center received technical assistance with both ECERS and ITERS, only count the center once in this overall total. <p>Note: If the TA occurs such that the pre-assessment is conducted in one FY and some of the TA along with the post-assessment is conducted in the subsequent FY, you would count the facility in both the year of the pre-assessment and the year of the post-assessment.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Other Supports to Child Care *

Required Outputs	Instructions
<p>a. Number of child care facilities receiving Other (non-TA) ECE Support, in which child care staff engage in problem solving with a TA.</p> <p><i>Note: to be selected only when another TA Program ID is assigned to the activity</i></p>	<p>a. Include the number of facilities that are receiving support that does not entail pre- and post-assessment using tools such as ERS (Environment Rating Scale), CLASS (Classroom Assessment Scoring System), PAS (Program Administration Scale used in center-based child care), BAS (Business Administration Scale for Family Child Care Homes), POEMS (Preschool Outdoor Environment Measurement Scale), or HSAET (Health and Safety Assessment and Encounter Tool). The activity this PID is assigned to should have a primary technical assistance PID assigned to it and the ECE support should be provided by an ECE technical assistant and involve problem solving.</p> <p>Include support that is tailored to the recipient site’s needs. Topics might include the mental health of children or staff, teacher/child ratios, or others.</p> <p>This support may be in response to a child care site’s request and would help strengthen the relationship and trust between the TA and the teachers/director. This support would help address an issue specific to the site.</p> <p>Do not include the communication of general information sent, for example, through group emails to all licensed child care facilities or large group webinars.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Training (DCDEE Approved)*

Required Outputs	Instructions
<p>a. Number of child care staff participating</p> <p>Optional:</p> <p>b. Number of child care facilities with at least one staff person participating</p>	<p>a. Count the number of child care staff participating in training.</p> <p>Include direct teaching staff who attend a Smart Start-funded non-credit DCDEE approved training or workshop.</p> <ul style="list-style-type: none"> • <u>Direct teaching staff</u> include but not limited to those individuals who spend a majority of their day working with children (e.g. lead teachers, teachers, and assistant teachers), directors, and program coordinators. Staff may be employed by facilities that are not regulated or licensed; OR licensed or unlicensed outside the county. • Can include direct teaching staff who were able to attend non-credit based training and/or workshops during school hours because Smart Start funds provided substitute teachers. “Non-credit” means that the participants do not earn college semester credit hours. Participants may receive DCDEE contact hours or Continuing Education Units (CEUs). Please count all who were served regardless of the county where they work or reside, license status, etc. <p>Do not include staff who teach school-age children as Smart Start funds cannot fund services to children after they enter kindergarten.</p> <p>b. Count all Facilities with staff participating, this number should match the Facility IDs submitted.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Family Support

Demographic questions as noted for family support PIDs with the following symbol ☞

Required Outputs	Instructions
<p>* a.1 - Number of Hispanic or Latino parents/guardians participating</p> <p>* a.2 - Number of Not Hispanic or Latino parents/guardians participating</p> <p>* a.3 - Number of Non-Responses for Ethnicity</p> <p>* b.1 - Number of American Indian or Alaska Native parents/guardians participating</p> <p>* b.2 - Number of Asian parents/guardians participating</p> <p>* b.3 - Number of Black or African American parents/guardians participating</p> <p>* b.4 - Number of Native Hawaiian or Other Pacific Islander parents/guardians participating</p> <p>* b.5 - Number of White parents/guardians participating</p> <p>* b.6 - Number of Multiracial or Mixed Race parent/guardians participating</p> <p>* b.7 - Number of Other Race parent/guardians participating</p> <p>* b.8 - Number of Non-Responses for Race</p> <p>* c.1 - Number of parents/guardians receiving interpretation services and/or services provided in a language other than English to enable participation</p> <p>* d.1 - Number of parents/guardians receiving transportation services and/or transportation support to enable participation</p> <p>* Note: We highly recommend that you collect Home Zip code of the participating parents/guardians to help you ensure geographic equity and enhance your planning alongside the new Smart Start Community Indicators Dashboard.</p>	<p>a.-b. When collecting demographic data, please remember to give respondents the option of not responding to your request for this information. While the data will be very helpful if obtained, providing the information should be optional for participants.</p> <p>c.1 Include the number of parents/guardians for whom you provide interpretation services for so they could participate in the program or intervention.</p> <p>Count the number of parents/guardians who participated in the program or intervention which was facilitated or implemented in a language other than English. Do not count the number of parents/guardians who only receive translated brochures or other printed information, but did not receive interpretation services or services provided in their preferred spoken language.</p> <p>d.1 Count the number of parents/guardians for whom you paid for their transportation expenses or otherwise provided transportation to attend or participate in the program or intervention.</p> <p>Do not include parents/guardians who received a cash grant or award for completing a specific number of weeks in a program or intervention.</p>

Adolescent Parenting Program ☒

Required Outputs	Instructions
a. Number of parents/guardians participating	<p>a. Include the number of individual parents/guardians participating in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Child care center or home providers/staff should NOT be included.</p>

☒ Family Support Programs with this notation will be asked to collect/report demographic data when they report family support data for certain PIDs.

Attachment and Biobehavioral Catch-Up (ABC) ☒

Required Outputs	Instructions
a. Number of parents/guardians participating	<p>a. Include the number of individual parents/guardians participating in the activity. Nurturing Parenting Program (NPP) – Young Parents and Their Families ☞

Required Outputs	Instructions
a. Number of parents/guardians participating	<p>a. Include the number of individual parents/guardians participating in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Child care center or home providers/staff should NOT be included.</p>

☞ Family Support Programs with this notation will be asked to collect/report demographic data when they report family support data for certain PIDs.

Parent Education – Other ☞

Required Outputs	Instructions
<p>a. Number of parents/guardians participating in other one time parent education class, workshop, or seminar</p> <p>b. Number of parents/guardians participating in other ongoing parent education</p>	<p><i>Note: This PID is used for models/programs not already included in the evidence summaries completed by NCPC. The models with this and all PIDs must have evidence that has been submitted by local partnerships and reviewed by NCPC.</i></p> <p>a & b. Include the number of individual parents/guardians participating in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Child care center or home providers/staff should NOT be included.</p> <p>Be sure to report those receiving parent education only once in a. and those participating in ongoing parent education in b.</p>

☞ Family Support Programs with this notation will be asked to collect/report demographic data when they report family support data for certain PIDs.

Parent to Parent Support ☞

Required Outputs	Instructions
a. Number of parents/guardians participating	<p>a. Include the number of individual parents/guardians participating in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Child care center or home providers/staff should NOT be included.</p>

☞ Family Support Programs with this notation will be asked to collect/report demographic data when they report family support data for certain PIDs.

Parents As Teachers (PAT) ☞

Required Outputs	Instructions
<p>a. Number of parents/guardians participating in home visits</p> <p>b. Number of parents/guardians participating in group connections</p> <p>c. Number of group connections held</p>	<p>a & b. Include the number of individual parents/guardians participating in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Child care center or home providers/staff should NOT be included.</p> <p>Do NOT count a parent/guardian or other individual who may be in the home during the home visit but does NOT participate in the home visit activities.</p> <p>b. Include any parent/guardian who participates in PAT group parent education, even if the family is not yet in the home visiting portion of PAT. Please consult your local PAT staff or the Implementation Manual if you have questions about the definition of a group connection.</p> <p>c. Count the number of PAT group connections (or group parent education sessions) actually held. If the session is offered but no parents attend, do not count that session.</p>

☞ Family Support Programs with this notation will be asked to collect/report demographic data when they report family support data for certain PIDs.

Positive Parenting Program (Triple P) – Level 1

Required Outputs	Instructions
No outputs required	This level is exempt from reporting. Partnerships are not required to report outputs for this activity.

Positive Parenting Program (Triple P) – Level 2 ☞

Required Outputs	Instructions
a. Number of parents/guardians participating	<p>a. Include the number of individual parents/guardians who are active participants in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Child care center or home providers/staff should NOT be included.</p>

☞ Family Support Programs with this notation will be asked to collect/report demographic data when they report family support data for certain PIDs.

Positive Parenting Program (Triple P) – Level 3 ☞

Required Outputs	Instructions
a. Number of parents/guardians participating	<p>a. Include the number of individual parents/guardians who are active participants in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Do NOT Count:</p> <ul style="list-style-type: none"> • A parent/guardian or other individual who may be in the home during the home visit but does NOT participate in the home visit activities. • Family child care providers or child care center staff.

☞ Family Support Programs with this notation will be asked to collect/report demographic data when they report family support data for certain PIDs.

Positive Parenting Program (Triple P) – Level 4 ☞

Required Outputs	Instructions
a. Number of parents/guardians participating	<p>a. Include the number of individual parents/guardians who are active participants in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Do NOT Count:</p> <ul style="list-style-type: none"> • A parent/guardian or other individual who may be in the home during the home visit but does NOT participate in the home visit activities. • Family child care providers or child care center staff.

☞ Family Support Programs with this notation will be asked to collect/report demographic data when they report family support data for certain PIDs.

Positive Parenting Program (Triple P) – Level 5 ☞

Required Outputs	Instructions
a. Number of parents/guardians participating	<p>a. Include the number of individual parents/guardians who are active participants in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Do NOT Count:</p> <ul style="list-style-type: none"> • A parent/guardian or other individual who may be in the home during the home visit but does NOT participate in the home visit activities. • Family child care providers or child care center staff.

☞ Family Support Programs with this notation will be asked to collect/report demographic data when they report family support data for certain PIDs.

Raising a Reader*

Required Outputs	Instructions
a. Number of child care facilities participating b. Number of children participating Optional: c. Number of community sites participating	a. Report the number of child care centers and homes that have at least one classroom participating in RAR. b. Include the number of children participating in the activity. Each child should ONLY be counted once. c. Optional: Include the number of community sites if you implement RAR at community sites instead of child care facilities.

** Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.*

Reach Out and Read

Required Outputs	Instructions
<p>This card is <u>exempt</u> from output data submission in fabrik, as NCPC receives it from the purveyor.</p> <p>Note: The data is available from the purveyor in the ROR Progress Report, which is usually distributed in both March and September. Please use the September report for data representing a full fiscal year.</p>	<p><i>Note: While your ROR card in fabrik is exempt from output data submission, the following may assist you with local data reporting on:</i></p> <ul style="list-style-type: none"> • <i>the number of children participating and</i> • <i>the number of medical practices participating</i> <p><u>Do not</u> obtain the data directly from the medical providers. ROR Carolinas will provide these data in a ROR Progress Report, which is usually distributed in March and September each year due to the ROR Carolinas’ reporting cycle for medical providers.</p> <p>Pull the number of well-child visits (WCVs) for children 6 months to 5 years old from the September report for year-end data. If you have more than one medical practice participating in your county(ies) please add the number of well-child visits from all of the participating practices. If your medical practice serves children younger than 6 months, do not include the count of the well-child visits for this age group in the data you summarize for fabrik as this may cause duplication issues. Please note that the number of well-child visits is a proxy for the number of children.</p> <p>Include each site as a separate practice. For example, if a medical practice has 3 offices, count each separately. Remember, the annual total should be an unduplicated count of the number of practices participating during the year.</p>

Required Outputs	Instructions
<p>a.—Number of children participating</p> <p>b.—Number of medical practices participating</p>	<p>ROR Carolinas will provide these data. Do not obtain the data directly from the medical providers.</p> <p>Due to the ROR Carolinas' reporting cycle for medical providers, these output data will not be available until September. However, the fabrik system will still expect you to submit outputs for this activity each quarter.</p> <p>Follow these guidelines for Quarters 1-4: When entering output data into fabrik, leave it blank for the quarter you are reporting on, then click Submit for that quarter. When you see a pop up box, select Data Not Yet Available as the justification. The system will convert the blanks to NA. Follow these steps each quarter:</p> <p>a.—Enter your year-end total count for children in fabrik's cell for Quarter 4 once you receive it the ROR Progress Report, which is usually distributed in September. Please pull the number of well-child visits (WCVs) for children 6 months to 5 years old from the September report. While you may also receive a mid-year Progress Report around March, this data is for local use only; please do not report data from the March report in fabrik. If you have more than one medical practice participating in your county(ies) please add the number of well-child visits from all of the participating practices. If your medical practice serves children younger than 6 months, do not include the count of the well-child visits for this age group in the data you summarize for fabrik as this may cause duplication issues. Please note that the number of well-child visits is a proxy for the number of children.</p> <p>b.—Enter your year-end total count of participating medical practices in fabrik's cell for Quarter 4 once you receive the ROR Progress Report, which is usually distributed in September. Include each site as a separate practice. For example, if a medical practice has 3 offices, count each separately. Remember, the annual total should be an unduplicated count of the number of practices participating during the year.</p>

SafeCare ☞

Required Outputs	Instructions
<p>a. Number of parents/guardians participating</p>	<p>a. Include the number of individual parents/guardians participating in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Child care center or home providers/staff should NOT be included.</p>

☞ Family Support Programs with this notation will be asked to collect/report demographic data when they report family support data for certain PIDs.

Health

Assuring Better Child Health and Development (ABCD)

Required Outputs	Instructions
a. Number of medical practices participating	a. Report the number of primary care medical practices participating. Include each site as a separate practice. For example, if a medical practice has 3 offices, count each separately.
b. Number of children in participating practices	b. Count all children 0-5 in the participating medical practices, regardless of insurance status, i.e., Medicaid and Non-Medicaid. Answer to the best of your knowledge using estimates from practices.

Be Active Kids*

Required Outputs	Instructions
a. Number of child care facilities participating	a. Include child care centers and homes with at least one classroom participating.

** Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.*

Child Care Health Consultation (CCHC)*

Required Outputs	Instructions
<p>a. Number of child care classrooms receiving technical assistance using the NC Health and Safety Assessment and Encounter Tool (HSAET).</p> <p>b. Number of child care facilities receiving technical assistance using the NC Health and Safety Assessment and Encounter Tool (HSAET).</p> <p>c. Number of staff receiving Technical Assistance</p> <p>Note: If providing training that offers DCDEE contact hours, please also select the ECE Training PID so you can report CCHC training related data in the Training PID.</p>	<p>Only include measurable technical assistance with pre and post assessment. Do <u>not</u> include general technical assistance or resource sharing.</p> <p>a. Count the number of classrooms receiving technical assistance with a pre and post NC Health and Safety Assessment.</p> <p>b. Count the number of child care facilities that had one or more classrooms receiving technical assistance with a pre and post NC Health and Safety Assessment.</p> <p>c. Count the number of staff in these participating classrooms receiving technical assistance guided by a pre and post NC Health and Safety Assessment. To obtain this unduplicated count, capture the unduplicated number of staff participating in TA as part of the post assessments.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Color Me Healthy*

Required Outputs	Instructions
<p>a. Number of child care facilities participating</p> <p>b. Number of children participating</p>	<p>a. Include child care centers and homes with at least one classroom participating. Only classrooms serving 4- and 5-year-olds may participate in Color Me Healthy.</p> <p>b. Include the number of 4- & 5-year-old children not yet in kindergarten participating in the activity. Each child should only be counted once.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Early Intervention Services

Required Outputs	Instructions
<p>a. Number of children with special needs who receive early intervention therapy or services</p>	<p>a. Children with special needs are children who are being served by the Children’s Developmental Services Agency (CDSA) or the Exceptional Children’s Program (ECP) and have an IFSP or IEP or are at risk for emotional, behavioral, or developmental delay.</p> <p>Examples of therapy and interventions include audiology/hearing, early identification and screening, family counseling and therapy, evaluation/assessment, nursing, nutrition, occupational therapy, physical therapy, psychological services, respite care, social work, special instruction, speech-language therapy, transportation, vision.</p> <p>DO NOT count:</p> <p>a. Children whose parents and/or caregivers receive the following services: parent support, parent and other caregiver training, technical assistance and information.</p> <p>Count ONLY those children whose therapy or intervention is being fully or partially paid for with Smart Start funds.</p>

Go NAP SACC/NAP SACC*

Required Outputs	Instructions
<p>a. Number of child care facilities participating</p>	<p>a. Include child care centers and homes with at least one classroom participating.</p>

* Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.

Health Care Access & Support

Required Outputs	Instructions
<p>a. Number of children participating</p> <p>b. Number of parents/guardians participating</p>	<p>a. Include the number of children participating in the activity. Each child should ONLY be counted once.</p> <p>b. Include the number of individual parents/guardians participating in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Child care center or home providers/staff should NOT be included.</p>

Oral Health Services

Required Outputs	Instructions
<p>a. Number of children participating</p>	<p>a. Include the number of children participating in the activity. Each child should ONLY be counted once.</p>

Prenatal-Newborn Services

Required Outputs	Instructions
<p>a. Number of parents/guardians participating</p>	<p>a. Include the number of individual parents/guardians participating in the activity. Other adults who have responsibility for the child (i.e. grandparents, aunt/uncle) may be included if said adult is a participant in the activity.</p> <p>This is a count of individual parents/guardians rather than family units.</p> <p>When more than one adult in the family participates in the activity, each should be counted separately.</p> <p>Child care center or home providers/staff should NOT be included.</p>

Preventing Obesity by Design*

Required Outputs	Instructions
a. Number of child care facilities participating	a. Include child care centers and homes with at least one classroom participating.

** Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.*

Pyramid Model – Social-Emotional Competence*

Required Outputs	Instructions
a. Number of child care facilities participating b.—Number of children with special needs participating	a. Report the number of child care facilities participating in a Smart Start funded activity to ensure that children with special needs have a consistent, developmentally appropriate learning environment in the child care setting. b.—Children with special needs are children who are being served by the Children’s Developmental Services Agency (CDSA) or the Exceptional Children’s Program (ECP) and have an IFSP or IEP or are at risk for emotional, behavioral, or developmental delay. Report the number of children with special needs participating in or benefiting from this activity.

** Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.*

Shape NC*

Required Outputs	Instructions
a. Number of child care facilities participating	a. Include child care centers and homes with at least one classroom participating.

** Partnerships will be asked to identify child care facilities served when they report outputs data for certain PIDs. These PIDs are marked with an *.*

Subsidy

Subsidy Services Supports PIDs: Dual Subsidy Services Support AND DSS Services Support

Required Outputs	Instructions
No output required	This activity is exempt from reporting. Partnerships are not required to report outputs for this activity.

All Other Subsidy PIDs

Required Outputs	Instructions
a. Number of children funded	<p>a. We recognize that managing subsidy could involve recoding and reclassification throughout the year. Therefore, partnerships are not required to report actual subsidy numbers until the end of the year.</p> <p><u>Note that fabrik will still expect you to enter information each quarter.</u> For all subsidy activities, please follow these guidelines each reporting period:</p> <p><u>For Quarters 1-3, leave the cells in fabrik blank, click Submit for that quarter, and when prompted, select Data Not Yet Available.</u></p> <p><u>For Quarter 4, enter the total for the year once you have that data. If you do not have the data before the due date, then follow the steps above for Quarters 1-3.</u> Go back to fabrik to enter the quarter 4 data once you receive it.</p> <p>Remember, report to NCPC an unduplicated count of the number of children served in this activity for the year. This is a count of the number of children rather than the number of slots. For Pre-K, for example, if one child leaves the program and you fill that slot with a new child, be sure to count each child separately. In this example, both children would be counted.</p>
