

CHILD CARE HEALTH CONSULTATION IN NORTH CAROLINA

for early care and education programs in Cumberland and Hoke County

Who are Child Care Health Consultants (CCHCs)?

CCHCs are trained health professionals with education and experience in community health and early child care education.

What do CCHCs do?

- Assess early child care education practices and environments.
- Collaborate with early educators to develop quality improvement plans to achieve safe and healthy outcomes.
- Provide health and safety technical assistance and trainings.
- Evaluate effectiveness of new knowledge, practices, and changes to environment.

When should I call my CCHC?
