

North Carolina Pre-Kindergarten Program (NC Pre-K) Site Monitoring Tool State Fiscal Year (SFY) 2024-2025

The NC Pre-K Site Monitoring Tool is a checklist used to monitor site information annually for both public schools and private NC Pre-K programs. This tool should provide a summary of all information for NC Pre-K classrooms located at this site. After initial monitoring, any components that require further attention should be monitored again within the same school year. Regular, systematic and focused supervision of NC Pre-K Programs, through use of the Site Monitoring Tool, [NC Child Care Rule .3000 NC Pre-Kindergarten Services](#) and the [NC Pre-K Program Requirements](#) will ensure that sound, high-quality and appropriate services are implemented and maintained for the NC Pre-K Program

Results from the NC Pre-K Site Monitoring Tool and DCDEE compliance visits should be used to ensure uniformity across programs and to develop local county/regional plans. The NC Child Care Rules are used by Regulatory Child Care Consultants to monitor NC Pre-K sites/classrooms. The NC Pre-K Program Requirements (policy/guidance) are used by the NC Pre-K Program Policy Consultants to guide local NC Pre-K Contracting Agencies and Committees about appropriate operating practices. The timeline for completion and guidance regarding how to conduct site monitoring is provided below.

Instructions

1. Each site administrator or designee must monitor their own program and classrooms on a regular basis using the NC Pre-K Site Monitoring Tool, [NC Pre-K Program Requirements](#) and the [NC Child Care Rule .3000 NC Pre-Kindergarten Services](#).
2. This tool has been revised to include questions specifically for **NC Pre-K classrooms that have provided remote learning services to ALL children for 1 or more weeks**. Site administrators must complete this section based on the information for **each** applicable classroom. If there are no classrooms that have provided remote learning services as described above, the site administrator should mark “N/A” for those questions and indicate the reason in the “Plan or clarification” column.
3. When an NC Pre-K Program Requirement and/or NC Child Care Rule has not been met, each site should establish a written Action Plan to meet compliance that includes documentation defining who is responsible for accomplishing the task, a timeline and other information to indicate progress toward meeting the requirement. No exceptions to the NC Child Care Rules will be issued by the Division of Child Development and Early Education (DCDEE). The Action Plan should incorporate any action items identified by the DCDEE Regulatory Child Care Consultant and should be aligned with the NC Pre-K Teachers’ BK Licensure Professional Development Plans, as applicable, and related to the instructional standards ([NC Professional Teaching Standards](#)), that govern classroom instructional practices. If an item is marked “N/A,” written clarification needs to be included in the documentation.
4. By **October 31, 2024** the site administrator or designee should complete the NC Pre-K Site Monitoring Tool, sign/date the Assurance Statement and send an original **OR** scanned copy of the completed NC Pre-K Site Monitoring Tool, to include attaching the Action Plan for items not met, to the local NC Pre-K Contract Administrator.
NOTE: If a designee is assigned, it must be documented in writing and the designee must have the same decision-making authority as the site administrator or public-school principal.

North Carolina Pre-Kindergarten Program (NC Pre-K) Site Monitoring Tool State Fiscal Year (SFY) 2024-2025

5. By **January 15, 2025** NC Pre-K contracting agencies must conduct on-site visits **OR** virtual/desktop reviews for **ALL** local NC Pre-K Program sites/classrooms and schedule follow-up visits/reviews as needed. The Site Monitoring Tool must be reviewed and validated by the local contracting agency using the source documents detailed in the tool.
NOTE: Source documents may be provided to the contracting agency during the on-site visit **OR** may be submitted to the contracting agency electronically or via hardcopy. Contracting agencies should communicate with site administrators to provide expectations for how to submit source documents.
6. After the on-site visit or virtual/desktop review has been completed, the contracting agency staff member(s) who conducted the review must complete the “Local Contractor Validation” statement and sign and date the tool.

Information collected with the Site Monitoring Tool should be used by the local Contract Administrator to confirm, record and respond to during monitoring visits made by the Division of Child Development and Early Education, Early Education Branch NC Pre-K Program Policy Consultants and Monitoring Compliance Unit staff.
